### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Richard S. MacMillan on 7/18/07.

The application has been amended as follows:

- In line 6 and line 13 from the bottom of claim 23 the phrase "temperature sensor (40)" has been changed to --temperature sensor (40, 59)-- since element 59 is the temperature sensor in the alternate embodiment;
- In line 2 from the bottom of claim 31 the phrase "an element (59) which" has been changed to --an element (59) comprising the secondary temperature sensor which-- to clarify that the element and the secondary temperature sensor refer to the same component;
- In the last 6 lines of the abstract the phrase "For this reason, temperature sensors (40,41,51) are allocated to selected secondary cooling circuits (5,6) and further control element (31) is allocated to the working chamber (19) to bypass the control element (21), the control element (31) freeing a further opening (30) being located in the separating wall (18) when predetermined temperatures and temperature ranges, respectively, are attained in at least one of the selected secondary cooling circuits (5,6),

the opening (30) not being influenced by the control element (21)" has been changed to --For this reason, temperature sensors are allocated to selected secondary cooling circuits and further control element is allocated to the working chamber to bypass the control element, the control element freeing a further opening being located in the separating wall when predetermined temperatures and temperature ranges, respectively, are attained in at least one of the selected secondary cooling circuits, the opening not being influenced by the control element-- to remove the reference numerals.
